

Web Series Analysis - Task Explanations

Task 1: Data Import and Setup

The dataset was imported into Tableau and verified for fields like Genre, Platform, IMDB Rating, Episodes, and Seasons.

Task 2: IMDB Rating Distribution by Platform

A Box-and-Whisker Plot was created to compare IMDB rating distributions across streaming platforms.

Task 3: Top 5 Highest Rated Web Series

A bar chart was made to display only the top 5 web series with the highest IMDB ratings.

Task 4: Genre Distribution

A bar chart showing the count of web series by genre to highlight which genres are most common.

Task 5: Episodes vs IMDB Rating

A scatter plot showing the relationship between the number of episodes and IMDB rating, with color representing platforms.

Task 6: Platform-Wise Average IMDB Rating by Genre

A heatmap was designed to show average IMDB ratings by genre and platform combination.

Task 7: Episodes per Season Analysis

A calculated field was used to find episodes per season, visualized through a bar chart for each web series.

Task 8: IMDB Rating vs Number of Seasons (Grouped by Platform)

A scatter plot grouped by platform to observe rating trends with the number of seasons.

Task 9: Most Consistent Genre in Ratings

Variance of IMDB ratings per genre was calculated to find which genre has the most consistent viewer ratings.

Task 10: Above-Average Ratings in Each Genre

A calculated field identified series with ratings above the genre's average and visualized with color-coded bars.
